SUMMARY

Cloud architect & SRE with 4.5 years leading large-scale GCP/AWS projects, focused on cloud-native modernization, zero-trust security, and IaC automation. Skilled in high-traffic tuning and cost optimization; active blogger and open-source contributor building stable, secure, and scalable infrastructure.

WORKING EXPERIENCE

SENIOR SRE @ UNIVERSE TECH

2026/01 - Present

- Led the API Gateway migration from Kong to APISIX (K8s Gateway API); migrated plugins and refactored services, now deployed in Alpha, **optimizing routing and reducing API latency**.
- Architected Teleport as a **centralized access & audit hub** across VMs, DBs, and K8s; eliminated permanent SSH/access keys to enhance security and traceability.

SRE → SYSTEM ARCHITECT @ VAN GOOD TECH

2022/02 - 2025/10

- Built AWS Organizations & IAM Identity Center (SSO) **for 500 users** with centralized account and access governance.
- Refactored IaC using Terraform, Terragrunt, and Helmfile, **boosting efficiency ~70%**; built 22 AWS & 12 GCP Terraform modules.
- Integrated Datadog with existing monitoring, **boosting troubleshooting efficiency by 90%**.
- Optimized Prometheus to **save ~\$200/day**; automated cloud version tracking via scripts, **saving ~\$3,000**.
- Managed 30+ GKE clusters (~500 nodes) at **100K RPM** each, with large-scale cloud design and tuning expertise.
- Authored 45+ technical docs to improve knowledge sharing and decision-making.

PERSONAL PROJECTS

Maintain a personal blog

2022/01 - Present

- Authored 88 technical articles** on cloud architecture and SRE practices covering AWS, GCP, Kubernetes, IaC, Docker, and monitoring.
- Reached **8,478 unique visitors** as of August 2026 (GA4), with ongoing technical exchange.
- Open-sourced sample code on GitHub; select projects gained **83 stars and 19 forks**, fostering knowledge sharing and real-world adoption.

GitHub open-source contributor

2023/07 - Present

- Active GitHub contributor focused on SRE/DevOps tool enhancements and documentation.
- Contributed PRs to AWS EKS Terraform modules and OpenTelemetry docs, correcting code and updating content; **merged into main branch**.

CERTIFICATES

Google Cloud Certified Professional Cloud Architect
Red Hat Certified Engineer (RHCE)
Red Hat Certified System Administrator (RHCSA)

SKILLS/TOOLS

Cloud Platform: GCP, AWS / IaC: Terraform, Terragrunt, Helm, Helmfile, Ansible
Container: K8s (GKE, EKS, OpenShift) / CI/CD: GitLab, GitHub, Jenkins, ArgoCD
API Gateway: Kong, APISIX / Security & Secrets Management: Teleport, Vault
Monitoring: Datadog, Prometheus, Elasticsearch, Kibana, Fluentd, GMP
